WORK HISTORY

LIA/Internship - Swedcon18
Frontend Developer
January 2023 - June 2023
Swedcon18 offers IT solutions and make startups. One of these is Carelyo. It is an innovative digital platform that allows you to have medical problems assessed quickly, regardless of location and at a low cost. I used React Hooks and React Query as a frontend developer.. I also participate in the daily stand-ups and meetings.

LIA/Internship - Enablers of Sweden
Frontend Developer
Aug 2022 - October 2022
Built an event calendar from scratch. Worked with a team of frontend and backend developers using Agile framework, HTML, CSS, and React js for the project's development.

Kantar Added Value
Data Processing Executive
Aug 2006 - July 2017
Coordinate with market research project leaders on data requirements and statistical analysis deliverables. Assist and help newly hired data entry operators.

Philippine Survey and Research Center
Data Processing Operator (Group Leader)
Feb 1995 - August 2006
Provides assistance to data processing operators. Process collected data from face-to-face research interviews. Run data tables using company provided softwares.

EDUCATION

IT-Högskolan, Stockholm
